
Bitstream Font Navigator Windows 10 Free //TOP\ Download

[Download](#)

I'm having a problem running the old version of Bitstream Font Navigator (version 4.0) on my laptop running Windows 10 Home Edition ... When I go into File Explorer to select a file or folder, I see the icons appear in yellow and the icons appear in gray. But when I click on the icon, it doesn't display anything. Even if I right click and select "Show Package Contents" it doesn't display anything. It could be because I went fullscreen, or it could be because my fonts are out of date. Does anyone know how

to fix this? I tried reinstalling it, but that didn't fix it.
