By Avid Video Artist Art Suite by Avid is a full-featured software to create custom borders for Video or Final Cut projects. You can add different border types including Printed and Natural (Traditional), Artistic (Auto), Linear & Curvilinear, Geometric, Pixelated, Pixel Art, Plaid and more. In addition to borders, you can add custom titles (text or graphics) and top and bottom transitions. Art Suite also includes a preset library with special effects to enhance your videos. Included effects include Black & White, Retro, Overlay, Text Effect, and numerous presets for Transition (Begins, Ends, Stills, Cross, and Debut). Art Suite Features Art Suite has a variety of cool features that will enhance your videos. Customizable Borders Art Suite lets you add borders with many borders. Choose from many horizontal and vertical patterns. Customize Borders Add a border that is identical to the video background. This can include a wide variety of patterns, shapes, and text. Adjustable Bordering Height You may adjust the length of the border to be exactly in line with the background. It is also possible to choose border to border spacing to create a border that is slightly longer or shorter than the video background. Adjustable Bordering Width When you choose automatic or manual border, choose from different widths. Each time you add a border, you may increase or decrease the border width so it is completely in line with the video background. Frames / Panels You can add frames (before and after) to your video. Use the frames to build a border around your entire video. Panels Add a panel to the before and after images of your border. This may include a title, text, graphic, picture, logo, and much more. You can add the panel to either the before or after image. Advanced Options Art Suite comes with a variety of options that make it easy to build, manage, and customize your project. Simple Project Creation Create your own custom border designs, and save them to your library to use later. Project Library Save your own custom borders for use in any of your future video projects. Automatic Borders Choose the automatic border type based on your video and the border you want. Automatic Borders Choose from a variety of borders that match your video and border style. Auto Layout Select the frame alignment and font style of each panel.
